

Typical Schematic of Property

Below is a typical schematic of information that would be relevant to the evaluation of your sewage disposal system. In the box below the typical schematic, please draw a simple sketch of your property including any specific features or structures, and their general location. The idea is to help our staff members identify the location of your on-lot septic system to observe the grounds. There is a section to include a few sentences of specific requests and/or contact information as applicable.

Property Schematic

Property Owner Name: _____

Property Address: _____

Specific Requests and Contact Information: _____
